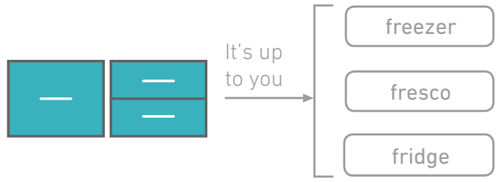
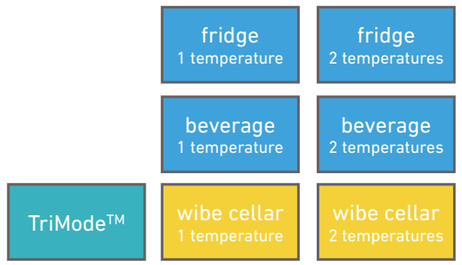
Our patented **TriMode™** drawers can be set to three different microclimates: freezer, fresco or fridge.



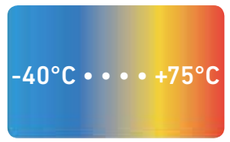
UNDERCOUNTER MODELS

Our undercounter models come in 5 versions, ideal for small spaces and use outdoors!



BLAST CHILLER AND VACUUM SEALER

The Fhiaba blast chiller has a temperature range from -40°C to +75°C.
With 11 functions, it makes creative, all-encompassing cooking quick and easy. Take food directly out of the oven, without even changing the tray!



THE FOUR DIMENSIONS OF QUALITY

Exclusive Fhiaba technology makes it possible to combine the four "**key variables**" of refrigeration, to create and maintain perfectly balanced climates.

- Temperature
- Humidity
- Ventilation
- Time

Accurate temperatures

Thanks to the numerous built-in sensors, the indicated temperature is always accurate.

Uniform ProVentTM Ventilation

The ProVentTM system uniformly distributes cold air to all parts of the fridge.

TriPro Refrigeration ™

The triple cooling system ensures each ingredient and dish gets the right microclimate.

Humidity control

Our wine cellars offer three different humidity level settings: low, medium and high.

Fhiaba is the only company in the world today with technology capable of managing three independent climate zones, for unrivalled, high-quality food storage.
Fhiaba systems also feature lateral refrigeration, thereby allowing for maximum use of the full depth of the inner compartments.

The drawers for storing the cheese are offered in two heights, they have been designed and made by Friulian artisans in precious okumè wood.
With ultra-clear tempered glass front for proper attention to the products to be stored, a sliding cover in ultra-clear tempered glass on "Teflon" guides with a solid wood handle for easy access. On the bottom a perforated steel plate for perfect humidity and hygiene. All fresh food can be stored in the drawer by setting the appropriate temperature in the cellar display.
